Spectrum of Solutions

## ClearLift

Radiance, clarity and smooth texture are the hallmarks of youthful skin. But over time, the effects of aging and sun exposure can take their toll, leaving skin imperfections such as wrinkles, fine lines, sun spots, uneven skin tone and skin laxity. ClearLift treats a variety of age-related skin imperfections including wrinkles, fine lines, photo-damage, uneven skin tone and skin laxity.

Half Face	£150
Full Face	£200

## ClearVein

Show off your beauty with ClearVein; the ultimate solution for visible veins. Varicose and spider veins are blood vessels that become enlarged and visible due to weakened valves, which cause blood to pool rather than flow to the heart. Harmony's ClearVein treatments offer effective, non-invasive solutions that close these veins and reduce or eliminate their appearance. The treatments are safe and effective and provide reliable, long term results.

Half Face	£150
Full Face	£200

## Pigmentation Reduction

If broken or dilated capillaries are a concern, or you suffer from rosacea, then we have an effective non-surgical solution for you. Using our Harmony XL Pro, we can treat superficial vascular and pigmented irregularities. The treatment is safe, quick & effective.

Half Face	£150
Full Face	£200

## Pigmentation Reduction

Pigmentation or dark patches can be a result of numerous factors such as age or sun exposure and can often difficult to treat. However using the latest in innovative laser technologies these dark blemishes can be significantly reduced, leaving you with a brighter, clear and more even complexion.

Half Face	£150
Full Face	£200

## ClearSkin

An innovative treatment for acne and acne scars leading to smooth, clear skin and renewed confidence. Harmony's acne laser treatment uses a combination of laser technology, simultaneous contact cooling for more comfortable treatment & a unique vacuum mechanism to treat all forms of acne vulgaris. The treatment is suitable for all skin types, has no side effects and achieves a clearer, smoother complexion with lasting results.

Half Face	£150
Full Face	£200

## i-Pixel Laser Resurfacing

i-Pixel Laser is the latest generation of fractional skin resurfacing; a highly effective treatment can dramatically alter the appearance of your skin, helping to reduce the signs of ageing & significantly improving texture, tone, pore size and any marks or scarring.

This state-of-the-art technology is superior to older resurfacing laser techniques which gave similar results but with longer downtime. If you are looking to improve the appearance of scars to achieve healthy, glowing, youthful skin, then this treatment is the perfect choice for you.

Half Face	£350
Full Face	£450

### Tattoo Removal

Had a change of heart about your body art? Uncover skin you can be proud of with the safest and most effective treatment for unwanted tattoos. We use advanced laser technology to remove tattoos. Laser tattoo removal is simple, safe, and produces fantastic results.

The advanced technology works by allowing the light produced by the laser to pass through the skin and break up the tattoo ink into tiny particles then the body disposes of these fragments via its immune system.

### HydraFacial™

HydraFacial™ is a unique and non-invasive multi-step treatment. It combines six separate skin rejuvenation procedures in one: Detox, Cleansing, Exfoliation, Extraction, Hydration and Antioxidant protection. The treatments can be tailored for specific skin concerns as well as for general skin health, and for even the most sensitive skins there's no irritation or downtime. The results can be seen immediately and are long-lasting.

At Aesthetics Collective we combine the separate multi-step treatments in different protocols, each offering you more tailored solutions both to general and to individual skin concerns. HydraFacial's philosophy of Skin Health for Life is about truly restoring youthful and healthy skin, leaving your skin with an immediate glow, from the moment you walk out the door.

### About Our Nurse

Rebecca is an aesthetic nurse practitioner & prescriber with a special interest in skin health and anti-ageing; she is also a fully qualified beauty therapist. She has worked in aesthetics for more than 10 years and has practiced both here in the UK and in the US.

She enjoys using injectables and the latest non-surgical treatments to provide her patients with a youthful, natural result.

### Anti-wrinkle Injections (Botox)

Anti-wrinkle injections are commonly referred to as 'botox', short for botulinum toxin. This is a naturally occurring protein that causes the muscles of the face to relax, consequently smoothing out wrinkles. It is the UK's most popular cosmetic treatment for the removal of wrinkles.

1 Area	£190
2 Areas	£255
3 Areas	£320

### Dermal Fillers

Facial fillers (also known as dermal fillers) use a natural gel to smooth out wrinkles, folds or scars to give your face a younger, refreshed more plumped appearance. If the skin on your face has lost its firmness and fullness, a facial filler treatment may be the perfect solution.

Dermal filler is a naturally-occurring hyaluronic acid gel that is injected into the face to smooth wrinkles and folds (especially around the nose and mouth). It is also used to plump out scars or dents in the face and to define and enhance lips, reshape the nose, or define and plump out cheeks.

As each person and their requirements are unique, we price all of our dermal filler treatments on the amount of filler used, Rebecca will discuss this with you as part of your consultation prior to treatment.

Prices start at £295 for 1ml
